PRODUCT CATALOG

Company Introduction

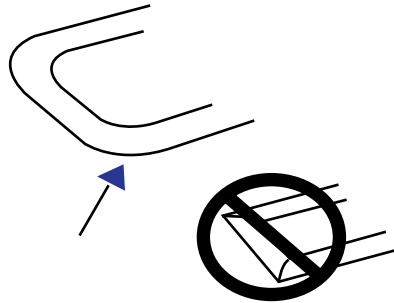

Special Features

We love to ride our features any chance we get. That is why we take the extra steps to make our features better.

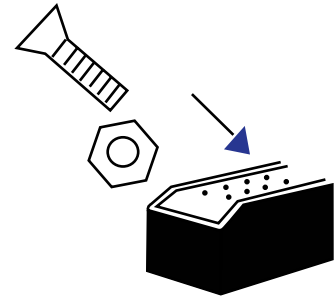

PIPE FOR COPPING NOT SQUARE TUBE

KAB uses 1 1/2" steel pipe coping

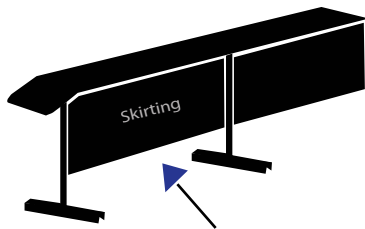

ROUNDED CORNERS

We use rounded corners on box tops.

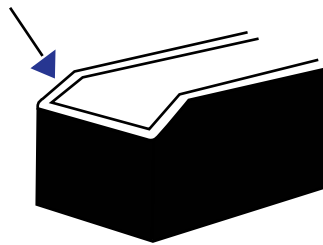

BOLTS NOT SCREWS

We only use bolts and nylock nuts to fasten the plastic to the box top.

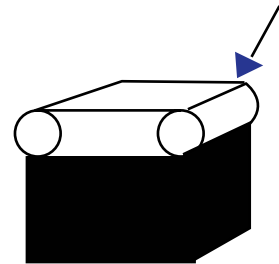

SKIRTING

All features come with safety skirting.

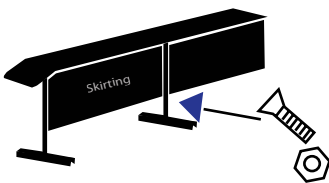

RAMPS

Entry ramps on boxes that do not start with an up section.

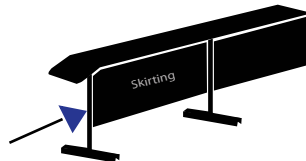

PERFECTLY FLUSH PLASTIC COPPING EDGE

With KAB's special coping jig we can get the coping and plastic to be perfectly flush. Even with round coping.

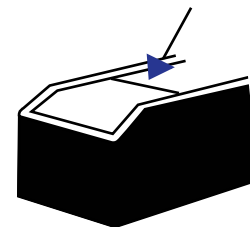

SKIRTING HARDWARE

The hardware used to fasten the skirting is the proper length.

NO SKIRTING GAPS

Every piece of skirting is cut to fit with no gaps between the leg and the skirting

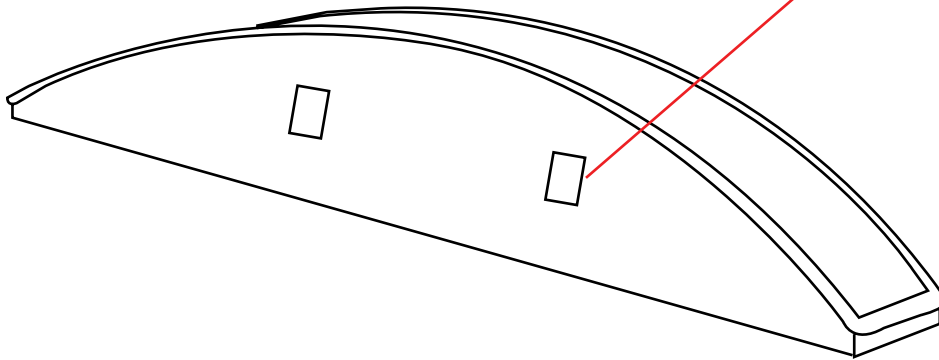

BEVELED SEAMS

Every plastic seem is bevelled to 45 degrees

Implements and Tools

Moving features on hill can be a tricky task. We have the tools to make your life easier when transporting features from spot to spot.

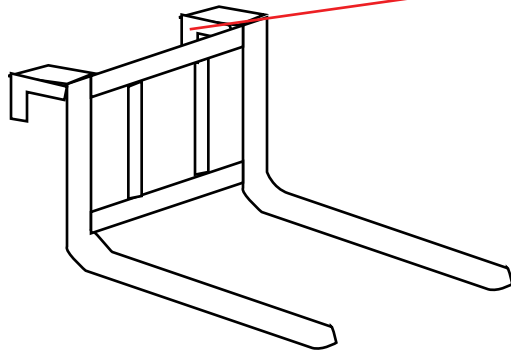

The Switch Blade by Park Bully is the fastest and easiest way to transport features.

Switch Blade pick points can be added to any of KAB's features for a modest price that meet the required specs of Park Bully. (max feature weight 1500lbs).

Price:

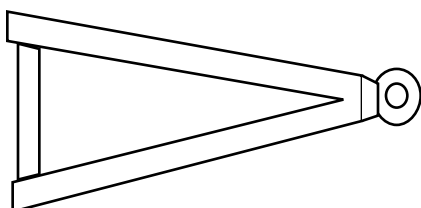

Rail	\$75
Tbox	\$75
True Box	\$150

Blade forks can be made to fit over any blade of a snow cat.

Price:

\$3500 for forks

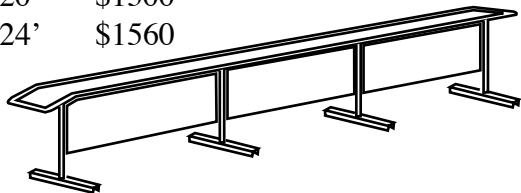

Hitches are made to be attached to really large features that can not be picked up by a snow cats blade. The feature is fitted with skis and a remoneable hitch.

Eagle Series *T-boxes*

Straight T-Box

- 16' \$1040
- 20' \$1300
- 24' \$1560

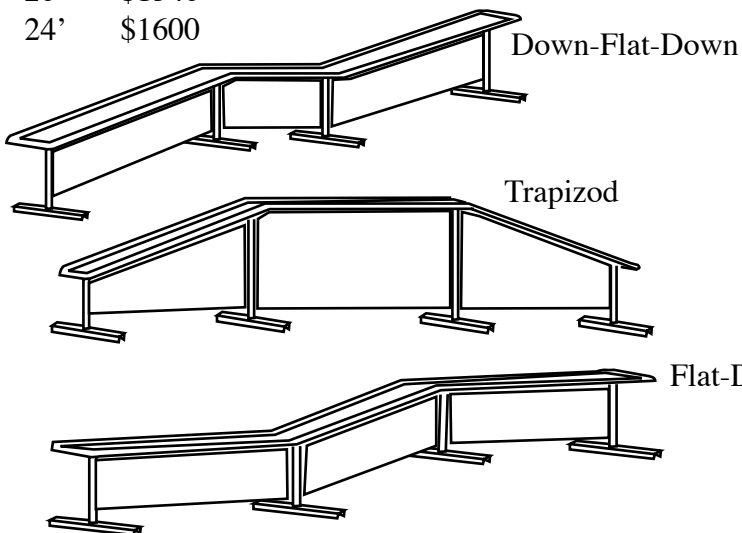

T-Boxes

T boxes are light weight compared to true boxes. Making it easier for small digger crew can move these feature into place without the aid of a snow cat.

Standard size: 2' skirting
 15" wide
 3' tall
 16', 20' & 24' long

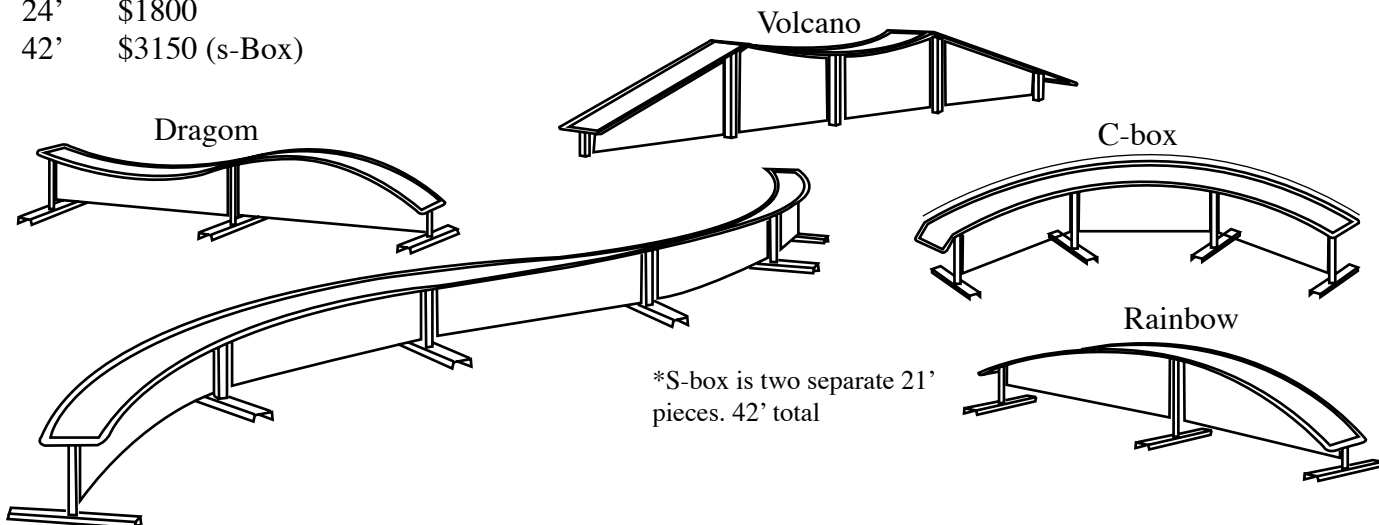

Kinked T-boxes

- 20' \$1340
- 24' \$1600

Curved T-boxes

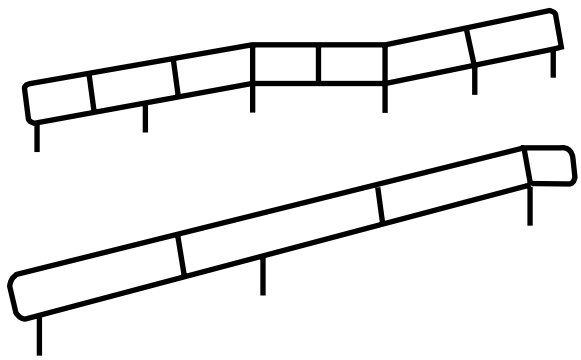

- 20' \$1500
- 24' \$1800
- 42' \$3150 (s-Box)

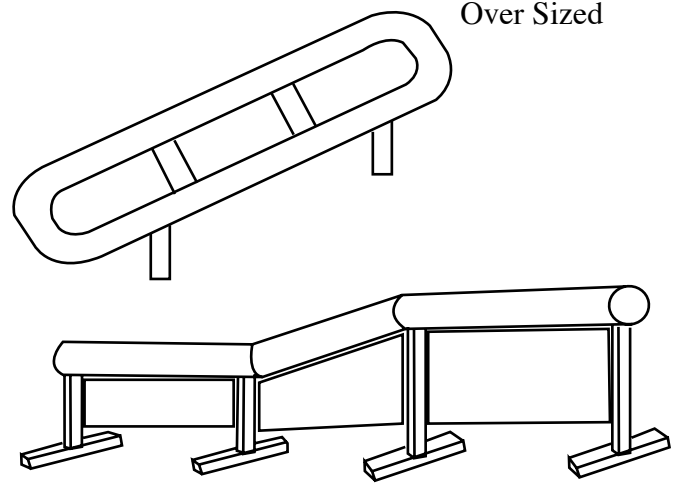

Eagle Series cont...

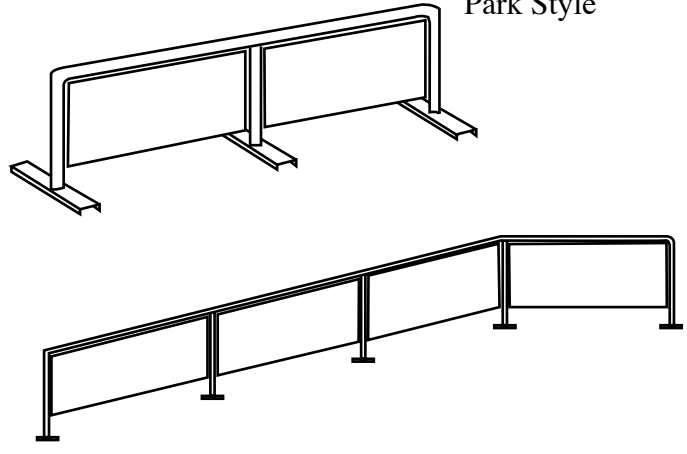

City Style

Over Sized

Park Style

Rails

Rail styles differ from city or park. They can come in all kinds of shapes. Along with the different styles and shapes our rails can be made with any type of steel; material from 2" to 24" pipe single or double barrel, rectangular tube, square tube.
